### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: As explained in the office action mailed 11 August 2003 (paper No. 7), the closest prior art is Stade (US 4,534,652). While Stade ('652) discloses "providing" an extruder having the structural limitations recited by independent method claim 34, the direction of flow of material of Stade ('652) is opposite to that claimed. It is considered that it would have been non-obvious to have caused the extruder of Stade ('652) to have run backward with respect to the disclosed manner of operation, as would be necessary to meet the limitations of independent method claim 34.

2. Formal drawings without stray marks (copy machine marks) must be submitted.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
